

# Ithaca Health Alliance

## HEALTH SERVICE PROVIDER REVOLVING LOAN FUND APPLICATION

The Ithaca Health Alliance mission is to facilitate access to health care for all, with a focus on the needs of the uninsured. The Health Fund has been established to facilitate access to health care and wellness of our members. The IHA recognizes holistic approaches to good health. New York State's professional healers provide compassion and a subtle understanding of mind/body health, so we have established the Health Service Providers' Loan Fund to support Healers as a component of a multifaceted approach to good health. Support of healthcare professionals improves the quality of health services available to all.

The Ithaca Health Alliance has established a revolving loan fund for health service providers who have been members of the Ithaca Health Alliance for at least two full years, providing discounts to fellow members and helping neighbors with limited access to healthcare services with a wider variety of health choices which they might better afford. All IHA provider members must be residents of New York State; for administrative purposes, preference for IHA provider loans is given to providers whose principal workplace is within thirty (30) miles radius of the City of Ithaca, New York. Loans from the health Service Providers' Loan Fund are available for facilities, equipment and training pertinent to the provider's scope of practice. The Health Alliance provides these loans interest-free. The maximum loan shall be \$2,000, with a maximum of five (5) loans outstanding at any one time.
